

Date of Review/Recommendation: January 30, 2009

Water Body Under Evaluation:

Water Body ID #: 1844
Name: Brush Creek (Class C)
Length of Segment: 2.5 miles
County(ies): Franklin

Use Attainability Analysis (UAA) Study:

UAA ID #: 0797
Submitter: MEC Water Resources
Date(s) Conducted: October 10, 2007
Date Received: December 1, 2007
Use Evaluated: Whole Body Contact Recreation (WBCR)

UAA Criteria Evaluated:

- ☐ 1-Natural Pollutant Sources.
☒ 2-Natural, Ephemeral, Intermittent or Low-Flow Condition.
☐ 3-Non-Remedial, Human Caused Condition.
☐ 4-Hydrologic Modifications.
☐ 5-Natural Physical Features.
☐ 6-Substantial, Widespread Social and Economic Impact.

Use Determination & Recommendation:

Has the use existed since November 28, 1975? ☐ Yes ☐ No ☒ Unknown

Comments: The UAA survey was conducted in October 2007 and no WBCR was observed. No interviews were conducted during the survey. This water body segment does go through a city park, however, and has been extensively monitored by a local Stream team.

Is the evaluated use attainable? ☒ Yes ☐ No

Comments: The stream met the maximum depth criterion at 1 out of 3 sites evaluated. Due to the stream meeting the maximum depth criterion the committee recommends the WBCR use designation be retained. Due to documented evidence of secondary contact (Stream Team monitoring), the committee recommends Secondary Contact Recreation be assigned.

Committee Recommendation:

☐ Add Use ☒ Retain Use ☐ Remove Use
☐ Modify Use ☐ Inconclusive
